Kevin,

See attached list of contact info (samples collected 07-16-2018 and 07-20-2018).

This spreadsheet includes new Residential results.

Both results were ≥ 140 ng/L, and have been highlighted.

Note: the Jackie Hood Lane address is a newly sampled resident. The Matt Hair address was sampled as part of our ongoing Quarterly Monitoring Program. The previous sample from 2/15/18 was 120 ng/L. This recent sample exceeds 140 ng/L.

None of the residences share their well with neighbors.

Please let us know if you need any additional information.

Thank you,
